

Press Release

USD 2.6 billion contract to modernize San Francisco International Airport

HOCHTIEF subsidiary Turner acts along with design-build partners

HOCHTIEF Group company Turner has announced the groundbreaking of the Terminal 3 West Modernization project at San Francisco International Airport (SFO) along with design-build partners Gensler and TEF. Turner will lead the USD 2.6 billion transformation of the terminal. The project includes the expansion and renovation of Terminal 3 and a new six-story building that will house airline lounges and operational office space.

A significant aspect of this project is its commitment to sustainability. The terminal will incorporate energy-efficient systems, water-saving fixtures, and materials sourced from sustainable suppliers. The project aims to achieve LEED Platinum certification, demonstrating SFO's dedication to environmental responsibility.

The expansion portion of the project is scheduled to open in the fall of 2027, with eastern addition side of Terminal 3 opening in 2029.

HOCHTIEF companies are currently expanding a large number of airports, including those in Sydney, Brisbane, Los Angeles and Des Moines (Iowa). In Europe, HOCHTIEF has built many airports, for example in Düsseldorf, Hamburg and Athens.

HOCHTIEF is an engineering-led global infrastructure solutions provider with leading positions in North America, Australia and Europe and a rapidly expanding presence in high-tech, energy transition and sustainable infrastructure markets. With around 41,500 employees and a sales volume of EUR 27.8 billion in 2023, HOCHTIEF is the leading construction management and green building company in the US (through Turner), the largest contractor in the Australia infrastructure services market (CIMIC), a key player in U.S. transportation infrastructure (Flatiron) and a renowned civil engineering and building construction company in Europe. The Group's PPP and infrastructure development activity is complemented by its 20% stake in the leading international toll road concessions operator Abertis. HOCHTIEF's strong competitive position is underpinned by the Group's engineering know-how, innovative digital systems and supply chain & logistics solutions. Thanks to its long-standing commitment to sustainability, HOCHTIEF, where green projects account for almost 50% of Group sales, has been listed in the Dow Jones Sustainability Indices since 2006 and is committed to delivering on its ESG agenda including a net-zero target for 2045.
