

Press Release

HOCHTIEF to build office park in Wrocław for EUR 84 million

Buildings will be constructed to meet LEED Platinum standard and are scheduled for completion in 2019

HOCHTIEF Polska as general contractor will build an office park comprising six buildings in Wrocław. The project developer and client is Vastint Poland Sp. z o.o. The project has a contract volume of around EUR 84 million and is scheduled for completion in November 2019.

"We are delighted to be able, with this contract, to continue the successful cooperation with our client Vastint for whom we already realized a similar large-scale project in Warsaw from 2011 to 2016. Poland is a successful and strategically important market for HOCHTIEF," says Henryk Liszka, CEO of HOCHTIEF Polska.

With the office park Business Garden Wrocław HOCHTIEF will erect a 15-story high-rise and five 7-story buildings on a total area of more than 130,000 square meters in Wrocław. An underground car park will be provided for each building. On total, 1,100 parking spaces will be created with the project. The project will be realized in line with the LEED Platinum sustainability standard.

HOCHTIEF Infrastructure delivers transportation, energy and building construction projects in Europe. Furthermore, the company has experience and reference projects in important regions worldwide. HOCHTIEF Infrastructure offers services for all realization phases of buildings, bridges, roads, tunnels, harbors, rail links, airports and facilities for the generation of conventional and renewable energy. HOCHTIEF Polska is one of the subsidiaries of the HOCHTIEF Group - one of the most global construction groups. The Group operates construction in the transportation, energy and social/urban infrastructure segments as well as in the contract mining, PPP and services businesses. With around 51,000 employees and a sales volume of about EUR 20 billion in FY 2016, HOCHTIEF is represented globally. HOCHTIEF Polska has specialized in the execution of general building and civil infrastructure projects. Its service spectrum mainly includes projects in the office, residential, industrial, public, shopping and entertainment center segments as well as civil engineering works associated with major infrastructure projects, construction works for the waste to energy segment and projects for the commercial power industry. The company and HOCHTIEF PPP Solutions offer participation in the realization of public-private partnership projects in the social infrastructure segment on the Polish market. HOCHTIEF Polska operates throughout Poland via a network of branches and representative offices in Warsaw, Poznań, Kraków and Katowice. Further information is available at www.hochtief.pl.
